ABDUL WAHAB

Flutter Developer

gujjarabdulwahab334@gmail.com | 0303-3740177 | Bahawalpur, Pakistan

PROFILE

I am a Flutter developer and Computer Science student at Islamia University of Bahawalpur (7th semester), skilled in building cross-platform mobile applications with modern UI and API integration. My experience includes ride-booking, dating, and e-commerce apps using Flutter, REST APIs, Firebase, and GetX state management. I focus on writing clean code, efficient architecture, and creating user-friendly designs.

TECHNICAL SKILLS

Languages: Dart
Frameworks: Flutter
State Management: GetX, Provider, setState
Backend & APIs: REST APIs, Firebase (Firestore & Auth)
UI/UX: Responsive Layouts, Material Design, Animations
Tools: Git, Android Studio, VS Code
Deployment: APK generation & testing

PROJECTS

MUV Passenger App

A ride-booking mobile app for passengers with full UI and API integration.
Features: Ride requests, real-time updates, booking flow, trip details.
Tech Stack: Flutter, REST API, GetX, Google Maps.
Focus: Smooth navigation and professional UX.

MUV Driver App

A complete driver-side app for managing rides and viewing trip details.
Features: Ride requests, earnings dashboard, trip completion flow.
Tech Stack: Flutter, REST API, GetX, Maps integration.
Focus: Synchronization with passenger app and efficient design.

Dating App

A social connection app UI with backend integration for user data.
Features: User profiles, matches, chat UI, and authentication.
Tech Stack: Flutter, REST API, GetX.
Focus: Modern UI with interactive animations.

E-Commerce App

A complete shopping app with Firebase backend.
Features: Product listings, cart, wishlist, and order checkout.
Tech Stack: Flutter, Firebase, GetX.
Focus: Firebase integration and smooth shopping flow.

EDUCATION

BS Computer Science – 7th Semester
Islamia University of Bahawalpur
